2016 BUDGET – CITY OF FULTON

CITY OF FULTON, MISSOURI

LEROY BENTON
Mayor

18 EAST 4TH STREET,
P.O. BOX 130, FULTON, MISSOURI 65251-0130
Telephone: (573) 592-3111 Fax: (573) 592-3119

To the Mayor, City Council and the citizens of Fulton;

The annual operating budget and capital improvement budget of the City of Fulton for 2016 as adopted by the City Council of Fulton is detailed in this document. The budget is a comprehensive financial document that covers all of the activities of the City of Fulton. Unlike an audit or financial statement, the budget focuses on future activities. The budget is, therefore, a plan of revenues and expenditures for the upcoming year and that means it sets out what we intend to do, and may change as opportunities and challenges occur during the upcoming year. It should only be seen as a guide. The City administration, under the direction of the City Council, will use the budget throughout the year to track the activities of the City by costs incurred and taxes, fees, interest, utility payments and other revenues received.

The budget process requires the active participation of all of the Department Heads, the Mayor and the City Council. This year we were able to budget needed capital improvement projects. The overall financial condition of the City is strong; however, we must continue to be strategic in the timing of our capital expenditures. The amount of funds budgeted in the General Fund is at a level that meets the immediate needs of the City.

In 2015 the City was able to complete and make significant progress on some noteworthy projects. The City completed the construction of the new Animal Shelter, and construction of the new City warehouse facility is anticipated to be completed by the end of 2015.

Throughout the budget process, an attempt was made to be conservative when estimating revenue but more liberal when projecting expenditures. This strategy allowed us to develop a budget that is balanced, as required by the City Charter, without relying on best-case scenarios. This budget is workable and charts a course for the City to follow throughout the year. The 2016 Budget includes projected revenues of \$44,326,699 and total expenditures and adjustments of \$43,997,712. This amounts to an overall budget surplus of \$328,987.

Capital Improvement expenditures in this budget total \$12,526,200: \$680,800 in the General Fund and \$11,845,400 within the Enterprise and Internal Services Funds. Capital improvement items for 2016 include:

- Wastewater treatment facility improvements. This is an \$11 million, multi-year project. \$7 million is budgeted for 2016;
- Reconstruction of the Airport's 06-24 Runway (currently asphalt). This expenditure is estimated at \$2.325 million and will be offset by a 90% State grant. This project was included in the 2015 budget; however, construction has been delayed until 2016;
- \$300,000 for a fire truck;
- \$33,000 for one Police patrol unit and the equipment necessary to outfit that vehicle;

2016 BUDGET – CITY OF FULTON

- New vehicles within the Purchasing, Engineering, Street, Building and Grounds, Electric, Gas, and Wastewater Departments. These vehicles would replace existing vehicles in the City's aging vehicle fleet; and
- Additional capital expenditures to reduce inflow and infiltration of storm water into the sanitary sewer system to reduce sewer backups and demand on the wastewater treatment facility.

The preceding capital improvement projects represent needs in the community that the City of Fulton is attempting to satisfy. The City has also been planning for renewal of utilities infrastructure by budgeting replacement costs on a yearly basis.

The Golf Course will be paid off in 2016; however, the City will take on additional debt with the construction of upgrades to the wastewater treatment facility. The City has spent or will spend millions of dollars to meet state and federal requirements for environmental protection projects at the landfill, in the sewer collection system, the drinking water treatment system and the wastewater treatment facility. These costs are borne almost exclusively by the rate paying customers of the city. Funding these and other Federal mandates is one of the City's greatest challenges.

The 2016 budget includes increases to electric rates. Revenues reflect an increase of approximately 8% for residential rates, an increase of approximately 6% in industrial rates, and an increase of approximately 7% in large power rates. The budget does not include changes to commercial electric rates. The 2016 budget also includes a 7.5% increase of sewer rates; which has already been approved by voters. Sales tax revenue is expected to be slightly less than what was budgeted in 2015. As of October 2015 sales tax revenues are down approximately 2% from the same period in 2014. This budget proposes direct transfers of \$1.2 million from the Electric Fund to the General Fund, \$300,000 from the Gas Fund to the General Fund, and \$200,000 from the Wastewater Fund to the General Fund. This total direct transfer of \$1.7 million is up from \$1.3 million in 2015 but down from \$1.9 million in 2014.

As we close out 2015 we can look back at a successful year. The 2016 budget will allow the City of Fulton to take on several important projects while keeping our high quality of service to the citizens so that we can maintain Fulton's excellence as a vibrant place to live and work. If you have any questions about the 2016 budget, please feel free to contact the administration.

Respectfully submitted,

William R. Johnson
Director of Administration

GENERAL FUND EXPENDITURES

Administration

DESCRIPTION OF GENERAL LINE ITEMS

The following paragraphs are brief descriptions of the line items that appear throughout the budget. These line items appear in nearly every division of every department. There are additional descriptions of line items that are unique to certain departments in the department narratives.

Personnel

Salaries - Wages paid to full-time employees for hours worked, for personal time off or for sick-leave. It includes wages for hourly workers and salaried workers.

Part-time/Summer - Wages paid to part-time or temporary employees for hours worked only.

Overtime - Wages paid after a standard work week is completed. For most employees forty hours are worked in a one-week period, but some exceptions apply.

Employee Retirement - This is a payment to the Local Governmental Employee Retirement System (LAGERS) for each eligible employee. In 2014, the City moved to the L-6 plan which increases the benefit to a retiring employee. Under the L-6 plan, employees now contribute 4% of their pay check. This is a fully-funded, defined-benefit plan.

Matching Deferred Compensation - Employees have at their discretion a savings program where the City matches the employee's contribution up to a specified amount. Employees are provided with various investment options. Employees may take advantage of this benefit after one continuous year of service.

Health Insurance - This is the amount paid into the Health Fund by the City to cover the cost of providing health care benefits to the employee and for the portion of the family coverage paid for by the City. The City has a self-insured plan with excess loss coverage.

Life Insurance - The City provides a small life-insurance benefit to the beneficiaries of employees.

Miscellaneous Personnel Costs - This includes payments for unemployment payments, advertising for job openings and other small payments for periodic personnel costs.

Consumables

Office Supplies - Copy paper, computer paper, post-it-notes, binders, binder indexes, pens, markers, shipping labels, adding machine tape & ribbon, folders, hanging folders, envelopes #10, inventory tags, data CDs, Franklin Planner refills, printer cartridges, disks, ink cartridges, staples, binder clips, etc.

Advertising - Expenses associated with advertising for programs, public notices, bids and other projects.

Minor Tools/Equipment/Furniture – Expenses associated with small dollar tools, equipment and furniture as needed. Anything over \$5,000 must be a capital purchase.

2016 BUDGET – CITY OF FULTON

GENERAL FUND EXPENDITURES

Administration

Computer Equipment/Software – Expenses associated with replacement of computers and new or upgraded software as needed.

Subscriptions/Publications – Expenses associated with trade publications and newspapers.

Clothing/Cleaning - Expenses associated with contracts to clean uniforms and entry mats and to purchase summer help tee-shirts, city caps, leather gloves, jersey gloves, and raincoats.

Fuel/Lubricants - Expenses associated with purchase of gasoline and lubricants such as motor oil for the operation of City vehicles.

Diesel Fuel - Diesel fuel is typically purchased internally from the Power Plant, and is used to fuel trucks, large pumps and heavy equipment. It is charged out to departments by their use.

Contractual Services

Legal – fees associated with paying City Attorney, lawsuits, etc.

Insurance (MIRMA) – The City is a member of the Missouri Intergovernmental Risk Management Association and our annual assessment pays for coverage for automobile, property, worker's compensation, liability and other types of insurance by participating in this risk management pool with other cities. The departments are charged their portion of this cost based on payroll and loss history.

Contract Labor - Expenses associated with contracted services for computer support, equipment maintenance, or other non-legal professional services. Additional descriptions may be provided for individual departments. Administration contract labor includes IT contact and payments to the County for collection of City property taxes.

Telephone - Expenses associated with land lines, cellular phones and monthly long distance charges.

Printing/Binding - Expenses associated with printing documents and large copy orders that are done by vendors.

Maintenance Contracts - Expenses associated with repair contracts on items such as photocopiers, computer systems, pesticide treatments, specialty equipment, etc.

Vehicle Repair – Expenses associated with repair of City vehicles. Typically these expenses are run through the Municipal Garage.

Equipment Rental Lease – Periodically departments will rent equipment that is not needed frequently enough to warrant an outright purchase.

Equipment Repairs – Expenses associated with repairs to heavy equipment such as backhoes, pumps, attachments and small engine items.

Safety Programs – Expenses associated with safety shoes, hard hats, chaps, safety glasses, training materials etc. The budget allows for a boot allowance of \$75 per person per year if special shoes (e.g. steel-toed boots) are required for the job.

Totals	12	11.5		

2016 Budget Notes:

We are continuing to supplement the annual \$250,000 worth of asphalt overlay with \$100,000 each from the Water and Wastewater Departments. The City Council approves the street overlay repair projects based on priority projects identified by the Mayor and City staff.

Personnel

Salaries – One Maintenance Worker II now splits duties between the Airport and the Street Department. Last year, that employee split duties between the Traffic Department and the Airport. The amount for salaries reflects raises for 2016.

Part-time/Summer - Funds for part-time/summer help remains at a reduced level.

Consumables

Asphalt Repair Materials – Asphalt for street repairs.

Concrete/Aggregate Materials - Base rock, clean rock, shot rock, riprap.

Chip Seal Program - Expenditures associated with the purchase of chip rock and oil used to chip seal roadways that demand less maintenance and usually have lower volumes of traffic. Funding is also used to lease crack sealing machine and purchase oil to seal cracks in our concrete streets.

Concrete Street Repair – Supplies for concrete street repair includes concrete, rebar, etc.

Sidewalk Program - Upon entering an agreement with the City, the city reimburses the property owner for the actual material costs associated with the repair or replace of public infrastructure sidewalks, curbs or related infrastructure. These projects must be approved by the Engineering Department.

Brick Street Repair – These funds pay for expenditures for materials associated with the repair or replacement of the brick streets and brick parkways in the downtown area.

2016 BUDGET – CITY OF FULTON

GENERAL FUND EXPENDITURES

Street Maintenance Department

Storm Drainage Material – These funds cover expenditures associated with the repair or replacement of storm water structures including culvert pipes, Pipe end sections, concrete for inlets, and drainage grates.

Snow Removal Materials – These funds pay for salt and other materials used to clear snow from city streets.

Contractual Services

Contract Labor – These funds pay for a contract with Kingdom Projects, Inc. to pick up trash in the downtown area.

Maintenance Contracts - Fees for repair contracts on items such as copier and computer systems.

Safety Programs – Boots, safety signs and training.

Hot-mix Contract/Slurry Seal – Allotment for the annual street overlay program. As noted above this money has been maintained at \$250,000, at least in part due to a dedicated sales tax for transportation.

2016 Budget Notes:

Personnel

Salaries - One of the MWII positions works in City Hall. Funds are included for raises in 2016.

The additional FTE reflects the hiring of a Maintenance Worker III – Crew Coordinator in April 2015. The individual in that position leads an inmate work crew that works on a variety of projects within the cities. During 2015, those projects included the construction of brick signs located at City parks and other facilities.

Consumables

Repair Materials/Supplies – Mower blades, electrical, plumbing, woodwork, etc.

Agricultural Supplies - Liquid weed killer, granular weed killer, grass seed, fertilizer, etc.

Concrete/Aggregate Materials - Concrete, steel, sand, etc.

Contractual Services

Buildings/Grounds Maintenance – These funds pay for a variety items including the Best/Stanley locks, and cores and the use of area vendors to do maintenance of city facilities including City Hall.

Maintenance Contracts – Among the items funded out of this account are contracts for pest control and codes for new keys.

2016 BUDGET – CITY OF FULTON

GENERAL FUND EXPENDITURES

Debt Service Payments

1999 Capital Project Bonds (Dollar General Development)

In late 2010 the City successfully obtained refinancing thereby eliminating the City's liability for this project. Debt service payments on the 2010 Refunding Bonds are now entirely financed by the TIF district and are no longer a General Fund obligation.

City Hall Project

These are no more payments on the 10-year lease entered into with a consortium of local banks to finance construction of the new City Hall. The lease began in December 2001 and the new City Hall was dedicated to the public on October 19, 2002. The final \$229,500 was paid in 2011 (including interest) with the final payment in September 2011.

2016 Budget Notes

Revenues

The 2016 budget includes an increase in Electric revenue that is dependent on an Electric rate increase. Revenues reflect an increase of approximately 8% for residential rates, an increase of approximately 6% in industrial rates, an increase of approximately 7% in large power rates, and a 25% increase in demand rates. No changes are included for commercial electric rates.

Residential Service - Revenue from power sold to residential customers residing within the city limits of Fulton.

Rural Service - Revenue from a few customers receiving municipal electric service outside of Fulton's corporate city limits.

Commercial Service - Revenue from power sold to commercial businesses within Fulton. An additional amount is charged to those customers that purchase additional electric energy capacity but do not use enough power to require demand meters.

Industrial Service – Revenue from power sold to our industrial customers that used over 200 KW per month of demand, as measured by demand meters. These budget estimates are based on the previous revenues.

Industrial Demand - Revenues from meter readings that determine the peak demands put on the system by high-volume industrial users of electric power.

2016 Budget Notes

Revenues:

Residential Service - Revenues from residential customers residing within the city limits of Fulton water usage.

Rural Service - Revenues from the few customers, receiving water service, who reside outside of Fulton's corporate city limits.

Commercial Service – Revenues from water usage of commercial businesses within Fulton. Estimates based on current usage.

Industrial Service – Revenue from water usage of industrial customers.

Water Station Revenue - Revenues for bulk water sales.

Payment in Lieu of Taxes (PILOT) – An amount equal to 5% of Water revenues are collected and then transferred to the General Fund per ordinance, Sec. 114-76. This balances line item #23-599-5600.

Expenses:

Production

Utilities – Energy required to run the water plant, and different water pumps, towers and wells.

Purchased Water - Water purchased from the rural water district.

2016 BUDGET – CITY OF FULTON

ENTERPRISE FUNDS

Water Fund

Chlorine – Chlorine is purchased under contract and added to the water to maintain safe drinking water.

Pump Maintenance – Booster and main pump maintenance.

Tank Maintenance – Cathodic protection maintenance.

Distribution Expense

Utilities – Energy required to run the water plant and different wells.

Administrative Expense:

Salaries - The salary of the Utilities Superintendent, Administrative Assistant, and the IT Technician are divided among the four utilities they serve; Electric, Gas, Water and Wastewater. Raises are included in the 2016 budget.

Postage - The annual water safety reports is mailed to all the households in the City.

Non-Operating Expense

Administrative Services – Reimbursement to the General Fund for expenses for administration, purchasing, utility billing and bookkeeping.

Inspector Services - Reimbursement to the General Fund for expenses for inspection services provided by building official and construction inspections.

Engineering Services - Reimbursement to the General Fund for expenses associated with engineering, connection, location, and performance auditing for municipal utility performed by general fund departments.

Building and Grounds Services - Reimbursement to the General Fund for expenses of upkeep on utility easements, repairs and maintenance to City buildings.

Audit – Portions of the annual audit cost is allocated to the different funds.

Depreciation - Annual depreciation expense on buildings, equipment, and water system.

Payment in Lieu of Taxes (PILOT) – An amount equal to 5% franchise expense utilities pay to the General Fund of the City. No revenue is actually recorded because the funds are transferred directly to the General Fund but we reflect the amount in the budget to show the contribution by each fund.

Net Adjustments

Payment on Loan from Electric and Gas – This loan payment to the Electric and Gas Fund is reimbursement of funds that were borrowed to raise the south end water tower.

2016 Budget Notes:

The capital budget for the Wastewater Department plans for significant improvements to sewage treatment facility. As estimated \$7 Million will be spent during 2016 as a part of the full \$11 Million project.

Revenue:

The 2016 Budget includes a 7.5% sewer rate increase that will take effect at the beginning of 2016. Projected revenue has been increase accordingly.

These line items are essentially identical to the Water Utility.

Expenses:

Line Maintenance – Maintenance, repair and replacement of main sewer collection lines.

Plant Maintenance – Maintenance and upkeep of the city’s wastewater treatment facility.

Utilities - Energy required for operation of wastewater treatment plant and lift stations.

Collection Expenses

Personnel

Salaries – Raises are included in this budget.

Contractual Services

Insurance - In addition to the collection divisions portion of the MIRMA bill being charged to this line item, the estimated amount of sewer deductible payments is budgeted here.

2016 BUDGET – CITY OF FULTON

ENTERPRISE FUNDS Wastewater Fund (cont.)

Maintenance Contract (SG) - Smart Grid technology and SCADA controls are being incorporated into the management of the wastewater system as well, particularly to regulate the centrifuge at the plant.

Street Repair - Funds are allocated in the budget to repair the streets that were excavated for sewer line repairs.

Administrative Expense

Salaries - The salary of the Utilities Superintendent, Administrative Assistant, and the IT Technician are divided among the four utilities they serve; Electric, Gas, Water and Wastewater. Raises are included in the 2016 budget.

Right-of-Way Lease – Payment to Gateway Western Railroad for the use of the right of way.

Non-Operating Expense

Administrative Services – Reimbursement to the General Fund for expenses for administration, purchasing, utility billing and bookkeeping.

Inspector Services - Reimbursement to the General Fund for expenses for inspection services provided by building official and construction inspections.

Engineering Services - Reimbursement to the General Fund for expenses associated with engineering, connection, location, and performance auditing for municipal utility performed by general fund departments.

Building and Grounds Services - Reimbursement to the General Fund for expenses of upkeep on utility easements, repairs and maintenance to City buildings.

Audit – Portions of the annual audit cost is allocated to the different funds.

Depreciation - Annual depreciation expense on buildings, equipment, and water system.

Payment in Lieu of Taxes (PILOT) – An amount equal to 5% franchise expense utilities pay to the General Fund of the City. No revenue is actually recorded because the funds are transferred directly to the General Fund but we reflect the amount in the budget to show the contribution by each fund.

Capital Outlay:

A description of the capital outlays included in the 2016 budget is provided starting on page 142 of this budget document.

2016 BUDGET – CITY OF FULTON

DEBT SERVICE FUNDS

The Debt Service Funds are used to account for the accumulation of resources for, and payment of principal, interest and other related costs of the City's debt. These debts are issued in bonds.

COMMUNITY DEVELOPMENT FUND

The Community Development Fund is a debt service fund that accumulates revenue for the retirement of the Neighborhood Improvements District general obligation bonds for the financing of Tanglewood Public Golf Course. The remaining balance will be paid off 2016.

CAPITAL IMPROVEMENTS SALES TAX SPECIAL REVENUE FUND

This Fund is designed to split money between the water and sewer capital projects that were approved in 2004 and 1996 respectively.

SEWER CAPITAL IMPROVEMENTS DEBT SERVICE FUND

In April of 1996, the citizens of Fulton approved a capital improvements sales tax to improve and extend Fulton's sewer system. The City was able to participate in the Missouri State Revolving Loan Fund Program and issued special obligation bonds, (\$6,000,000.00) to finance those improvements. Revenue from the one-half cent sales tax is used for the debt service on the bonds issued for that purpose.

WATER IMPROVEMENTS DEBT SERVICE FUND

In April of 2004, voters overwhelmingly approved proposed improvements to the water system. This extended the existing sales tax for sewer to pay off the debt on items such as water pumps, water lines, and two new water towers. All capital projects are completed and only the bonds remain to be paid off. This project takes advantage of the Department of Natural Resource's State Revolving Loan Program (SRF).

TIF DEBT SERVICE FUNDS

The 2010 Capital Project Bonds were retired on September 1, 2014; five years earlier than expected.

2016 BUDGET – CITY OF FULTON

SPECIAL REVENUE FUND NARRATIVE

Special Revenue Funds are used to account for revenue derived from specific sources which are designated to finance particular functions or activities of the City.

ATKINSON ROAD TIF

This Tax Increment Financing District is essentially the Dollar General site. Incremental tax revenues in this district are distributed by the City of Fulton and used to pay off the debt as outlined in the TIF Plan. This special revenue fund has been established to collect funds dedicated to paying of the bonds for this project and the Public Improvement TIF. If more funds than necessary are collected in the Public Improvements TIF, under the rules governing the TIF reserve fund, those funds can be used to pay developer costs and bond payments on the Atkinson Road TIF.

PUBLIC IMPROVEMENT TIF

This Tax Increment Financing District is comprised of the Tanglewood Golf Course, the Tanglewood housing area, and the industrial park. Revenues from this TIF and the ATKINSON ROAD TIF can be used to pay off the 2010 refunding bonds.

FULTON COMMONS TIF

This Tax Increment Financing District is comprised of the various properties around the Fulton Commons Shopping Center. The district was created to upgrade the blighted area that included the former Wal-Mart building after they built a new facility. The bonds are paid entirely from the sales and property tax increment that results from the added economic activity on the property. The City General Fund has no obligation to pay off the bonds.

POLICE FORFEITURES

The Fulton Police Department occasionally receives forfeitures and distributions that may only be used for extraordinary or designated purposes. This fund segregates those monies so that they may be used for their intended purposes.

The Fulton Public Improvements TIF District was created in order to accumulate the tax increment created by development and use them to pay part of the costs for construction of the overpass at the intersection of Route HH and U.S. Highway 54.

2010 Capital Project Refunding Bonds were retired September 1, 2014. Revenues from the Fulton Public Improvements TIF and the Atkinson Road TIF (Dollar General) were used to pay off these bonds five years early. Although the debt is now retired, the TIF will remain in existence until the developer distribution is satisfied. The City hopes to satisfy the annual developer distribution in late 2015 or early 2016.

INTERNAL SERVICE FUNDS

The Internal Service Funds account represents financing of goods or services provided by one department or agency to other departments or agencies of the City on a cost-reimbursement basis.

HEALTH INSURANCE

The City of Fulton provides health insurance coverage to employees through a partial self-insurance plan utilizing third party administrators. The City pays for the employee and shares the cost of coverage for spouses and dependent children. This fund is designed to accumulate calculated contributions from other funds and will pay covered claims, reinsurance premiums and administrative costs.

MUNICIPAL GARAGE

The Municipal Garage provides repair and maintenance services on City owned vehicles and equipment for all departments. The fund is supported by fees charged for services performed. The fees are charged back to individual departments for whom the work is being completed. The goal is to cover costs.

The Health Insurance Fund was established to accumulate employer and employee contributions which are disbursed as benefit claims are processed. The fund is used only for health, vision and dental insurance benefits and administration charges. The City of Fulton maintains a self-funded insurance program with claims processed by Benefit Administration Services (BAS).

All City departments pay into the Health Insurance Fund based on the number of employees in that department. The total amount charged to the various departments is based on the estimated amount from prior and current claims that will be required to cover the City's share of claims in the budget year. In addition there are charges for administration of the claims and for coverage for large claims.

In 2015, the Health Insurance Fund charged as an expense to each Department \$400 per month for each employee that elected to receive employee-only coverage and \$800 per month for employees that elected family coverage. The 2016 budget reduces that amount to \$375 per month for employee only coverage and \$750 per month for family coverage. This reduction would reduce healthcare costs in all funds that employ full-time employees.

Capital Items:

A description of the capital outlays included in the 2016 budget is provided starting on page 142 of this budget document.

2016 BUDGET – CITY OF FULTON

CAPITAL PROJECTS

The Capital Projects are segregated in the budget document because they are typically one-time expenditures for the acquisition and/or construction of major capital facilities. In addition, recurring expenses that require purchases of large quantities on bid, or items that will be added to capital inventory and depreciated are placed in this section of the budget.

2016 Capital Outlay Highlight

Wastewater Treatment Facility Improvements

This is an \$11 million, multi-year project that will consist of improvements to the City’s wastewater treatment facility. The \$7 million expenditure that is budgeted for this project in 2016 is listed as a capital expenditure in the Wastewater Fund.

In 2016, this budget proposes that the City partially fund this project by paying \$2 million from the reserves of the Capital Improvement Sales Tax fund. This line item is listed as a “Transfer in from Capital Imp. ST” under the Net Adjustment section of the Wastewater Fund budget. The remaining \$5 million balance budgeted for 2016 will be funded through the State Revolving Loan Fund (SRF). This budget anticipates SRF construction draws totaling \$5 million in 2016. That \$5 million is listed as a “Draw on SRF” under the Net Adjustment section of the Wastewater Fund budget.

The City will not need to begin servicing the SRF debt until after construction is completed. As a result, principle and interest payments for this project are not included in the 2016 budget.

Remodel Westminster Fire Station (Station #2)

Estimated Cost: \$10,000

Station #2 is in need of some maintenance and upkeep. A lot of this can be accomplished with FRDC labor to help keep the cost down. City Engineering is working up the particulars and costs for a planned renovation of this facility. Other than recent new bay doors, no significant work has been done at this station since it was new in 1983.

Fire Truck

Estimated Cost: \$300,000

These funds will be used to purchase a new fire truck.

GPS Equipment

Estimated Cost: \$1,500

Our current GPS equipment was purchased in 2010. We have had to send one in for repairs due to connectors wearing out. We are anticipating further repairs and maintenance.

Construction Inspector's Truck

Estimated Cost: \$22,000

Current vehicle has had multiple issues over the years. These funds will be used to purchase a new, 4x4 utility vehicle.

GIS Computer and Monitor

Estimated Cost: \$2,000

The engineering department has developed the GIS system to the point that it is now a great research and mapping tool that can be used to quickly help customers and other departments solve problems. We would like to get this tool to be more at our finger tips. A wall mounted touch screen monitor located where the current aerial photo map is in engineering would help by us interact, teach, and solve problems internally and externally.

2016 BUDGET – CITY OF FULTON

CAPITAL OUTLAYS

Enterprise Funds – Electric (Continued)

- Innerduct Trailer** **Estimated Cost: \$5,000**
We need a trailer suitable for dispensing innerduct for fiber and also residential services especially when bored in next to a house foundation.
- Street Lighting** **Estimated Cost: \$10,000**
This money will be used for any new decorative lighting projects, up-grading lighting on streets and for installing new street lights in developing subdivisions.
- New Services** **Estimated Cost: \$15,000**
To build and/or extend 3-phase single phase overhead lines.
- SCADA/Cyber Security** **Estimated Cost: \$10,000**
This item would cover the costs for replacing equipment for the high-availability, firewall that protects SCADA and the so-called DMZ and other SCADA equipment used to monitor the City's electric grid such as installing SCADA controls on underground switch feeds on Business 54 and upgrade SCADA at substations.
- ½ Ton 4x4 Pickup** **Estimated Cost: \$30,000**
This truck would replace a 1999 ½ 4x4 currently in service. The 4x4 feature helps off road and in winter conditions. The old unit came from State Surplus.
- ¾ Ton 2wd Pickup Truck (Power Plant)** **Estimated Cost: \$25,000**
The Power Plant would replace a 1999 model 1/2ton 4x4 pickup that was purchased from State Surplus. This unit is used primarily for fuel delivery to the warehouse but also provides transportation and hauling requirements.
- Vegetation Control** **Estimated Cost: \$10,000**
In order to begin a new vegetation control policy for our entire power system we need to start with the 28 mile Columbia line which is the main artery that feeds Fulton. This line is of most importance and is beginning to become an issue in Fence Rows as well as the City loop line where it is nearly impossible to get trucks into some locations not to mention substations.
- Line Extensions** **Estimated Cost: \$25,000**
To build and/or extend 3-phase single phase overhead line for new and existing customers.
- Transformers** **Estimated Cost: \$25,000**
To purchase large 3-phase pad mount transformers and overhead transformers as needed.
- Engine Maintenance** **Estimated Cost: \$50,000**
Any major repairs or maintenance conducted on the Jet Turbine or the 3 generators at the Power Plant.
- Small Trencher** **Estimated Cost: \$58,000**
We would be replacing a 1994 model 3610 Ditch Witch that has seen a great deal of use. It was originally bought when the City upgraded to 13,800volt system. A small to medium size trencher is routinely needed for hard to reach areas such as backyards, fenced areas, etc.
- Emergency Fund** **Estimated Cost: \$25,000**
Any unexpected purchases as needed, particularly from moderate storm damage – used for both the Power Plant and Distribution.

2016 BUDGET – CITY OF FULTON

CAPITAL OUTLAYS
Enterprise Funds - Gas

Bucket Truck

Estimated Cost: \$200,000

A direct replacement for the 1992 model year currently in service. The new unit would match the 55' height requirement needed for the Columbia line. The new unit would also feature air brakes and diesel engine that the current unit does not have.
